MEMORANDUM

TO: Douglas Gregory, Executive Director, GMFMC

FROM: Julie A. Neer, SEDAR Coordinator

DATE: December 20, 2017

RE: Cooperator appointees for SEDAR 62, Gulf of Mexico Gray Triggerfish

SEDAR 62 will provide a standard-track assessment of the Gulf of Mexico gray triggerfish. The in-person workshop will be held October 16-18, 2018, with a series of webinars or conference calls held before and after the workshop as needed to complete the assessment process.

As the Cooperator is responsible for appointing participants to the workshop panel according to GMFMC SEDAR procedures, I am requesting the appointment of participants for the Panel associated with SEDAR 62.

The suggested maximum number of participants for a standard-track assessment workshop is 8 participants. Additionally, you may appoint 4 industry observers to the process. Ideally, appointees will be providing data updates, or have insight that will aid the assessment process.

I would appreciate it if this matter could be included for discussion at your earliest convenience. Please inform me of the results of your consideration by 9 February 2018.

Thank you for your attention to this matter.

Julie A Neer
