Gulf Group King Mackerel Recreational Landings

Figure 1. King mackerel migratory group zones effective March 2017 (CMP Amendment 26[1]).

Table 1. Recreational landings (in million pounds whole weight) for king mackerel landed in Gulf Group zone from fishing years 2009 – 2019. Landings are based on the current Gulf/Atlantic Group Boundary that came effective in March 2017 (CMP Amendment 26[1]).

Fishing Year	MRIP-CHTS	MRIP-FES
2009/2010	3.26	7.94
2010/2011	1.99	5.50
2011/2012	2.01	5.06
2012/2013	3.22	6.86
2013/2014	2.08	3.95
2014/2015	4.02	7.78
2015/2016	2.53	4.81
2016/2017	2.59	4.99
2017/2018	2.35	5.21
2018/2019	2.34	5.04
2019/2020	1.05	2.10

Table 2. Proportion of recreational ACL landed for Gulf Group king mackerel. Recreational landings and ACLs are in MRIP-CHTS. Data reflects the change in ACLs and king mackerel migratory group boundaries that became effective in March 2017 (CMP Amendment 26[1]).

Fishing Year	Rec. Landings (mp ww)	Rec. ACL (mp ww)	% Rec. ACL landed	Total ACL (mp ww)	% Total ACL landed
2016/2017	2.59	6.26	41%	9.21	28%
2017/2018	2.35	6.04	39%	8.88	27%
2018/2019	2.34	5.92	39%	8.71	27%
2019/2020	1.05	5.81	18%	8.55	12%
