Questions on year to date date?

Current IFQ System

- Currently, IFQ system is being migrated to a new database and front-end input
  - Old software is end of life
  - Transition will be Fall/Winter 2020
  - May temporarily inhibit new changes to the Catch Share system

Potential carryover timelines

- Remaining amount of carryover calculated on Dec 31, 2020
- SSC needs to approve a new ABC with carry over pounds
  - No negative impact on SSB or rebuilding time
  - Consider buffer between ABC and OFL
- If approved, disbursement of carry over could occur in the *first quarter* of the year

2020 management values

Species	Commercial Quota	Commercial ACL	OFL -ABC
Red snapper (lb ww)	7.701 mp	7.701 mp	0.400 mp
Red snapper (lb gw)	6.937 mp	6.937 mp	0.360 mp
Red grouper (lb gw)	3.000 mp	3.16 mp	0.240 mp
Gag (lb gw)	0.939 mp	1.217 mp	3.65 mp

Note that buffer between the OFL and ABC is for all sectors combined.

Carryover Questions

- All or some share categories?
- Full or partial carryover of remaining allocation?
- Recipients of carryover?
  - Shareholders, allocation holders?
  - Those with landings?
- Distribution calculations?
  - Proportional (landings or remaining allocation) or equal?
- Impact on multi-use carryover?
  - Need SSC weigh in needed
