

SEDAR Management Committee
Action Schedule & Next Steps for Tab I
April 2016

Agenda Item IV: SEDAR Steering Committee Report Review (**Tab I, Nos. 4a and 4b**)

Timeline Status: Comments needed before May SEDAR Steering Committee meeting.

Background: The Committee will review the September 2015 (**Tab I, No. 4a**) and October 2015 (**Tab I, No. 4b**) SEDAR Steering Committee summary reports. Consideration should be given to any future assessment scheduling needs, and to the Southeast Fisheries Science Center's new assessment structure proposal.

Next Steps: To consider writing a letter to the SEFSC and the SEDAR Steering Committee commenting on the proposed "research track" assessment plan.

Agenda Item V: SEDAR Schedule Review (**Tab I, No. 5**)

Timeline Status: Proposed changes needed before May Steering Committee meeting.

Background: The Committee will review the current SEDAR Schedule (**Tab I, No. 5**) and recommend any modifications to the 2017 or 2018 assessment years. The Committee may also consider recommending species for assessment in 2019 and beyond.

Next Steps: Identify modifications to the SEDAR Schedule and direct staff to notify the SEDAR Steering Committee of any suggested changes.
