December 5, 2017

## **The Gulf Council Launches Redesigned Coral Portal**

The Gulf of Mexico Fishery Management Council has remodeled its Coral Portal website. Key features of the site include interactive maps, tools for making management decisions, and educational resources.

Development of the site is funded by the NOAA Coral Reef Conservation Program, and the project aims to share environmental information associated with corals and fisheries in the Gulf of Mexico with stakeholders across the Gulf that engage in business, recreation, and research.

Visit the site at: <http://portal.gulfcouncil.org/>

The Coral Portal will be updated regularly. We encourage you to contact us at [portal@gulfcouncil.org](mailto:portal@gulfcouncil.org) if you have any questions, comments, or suggestions.
