### **NOAA Fisheries Seeks Public Comment on Proposed Changes to Royal Red Shrimp Regulations**

***Comment period ends February 25, 2015***

NOAA Fisheries is seeking public comment on Amendment 16 to the Fishery Management Plan for the Shrimp Fishery of the Gulf of Mexico and a proposed rule that would implement the management measures contained in the amendment.

Amendment 16 proposes to:

- Increase the commercial annual catch limit for royal red shrimp from 334,000 pounds to 337,000 pounds and remove the quota.
- Remove the current in-season closure, while retaining the accountability measure that monitors landings and implements a closure only if the annual catch limit was exceeded in the previous year.

The Gulf of Mexico Fishery Management Council has submitted Amendment 16 to NOAA Fisheries for review, approval, and implementation. Comments on the amendment and the proposed rule will be accepted through February 25, 2015. We will address all comments specifically directed to either the amendment or the proposed rule in the final rule.

For more information on Amendment 16, please visit the NOAA Southeast Fisheries Web site at:
