### **[NOAA Fisheries Seeks Public Comment on a Proposed Rule for King and Spanish Mackerel in the Gulf of Mexico and Atlantic](#)**

***Comment period ends May 5, 2014***

NOAA Fisheries is seeking public comment on a proposed rule for Gulf of Mexico and Atlantic king and Spanish mackerel. If approved, this rule would modify the coastal migratory pelagics permit requirements and restrictions, including modification of the sales provisions and income requirements.

For the Gulf of Mexico, the rule would prohibit the sale of king and Spanish mackerel caught under the bag limit unless those fish are either caught on a for-hire trip and the vessel has both a for-hire and commercial vessel permit, or the fish are caught as part of a state-permitted tournament and the proceeds from the sale are donated to charity.

For the Atlantic region, the rule would prohibit the sale of king and Spanish mackerel caught under the bag limit unless the fish are caught as part of a state-permitted tournament and the proceeds from the sale are donated to charity.

In addition, the rule would remove the income qualification requirement for king and Spanish mackerel commercial vessel permits.

The Gulf of Mexico and South Atlantic Fishery Management Councils developed Amendment 20A to the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the Gulf of Mexico and Atlantic Region to address permit issues. This rule proposes to establish the management measures included in that amendment.
