The Ad Hoc Charter For-hire Data Collection AP is tasked with providing Gulf-wide stakeholder insight on the development of a new electronic data collection program for the charter for-hire and headboat fishing industry. The AP should consider lessons learned from the SEFHIER program and work collaboratively to discuss strategies that would enhance the timeliness, accuracy, and quality of data for the federal for-hire fleet. The AP should also consider balancing the anticipated reporting and economic burdens associated with their recommended program requirements.
