### **Gulf of Mexico Greater Amberjack Recreational Fishing Season Re-Opens on August 1, 2015**

NOAA Fisheries reminds recreational fisherman the Gulf of Mexico greater amberjack recreational fishing season re-opens on August 1, 2015, at 12:01 a.m., local time. The minimum size limit continues to be 30 inches fork length, which is expected to continue through the end of the recreational fishing season. There is a one fish per person daily bag limit. The captain or crew of a vessel operating as a charter vessel or headboat may not retain a bag limit.

Preliminary landings indicate the recreational quota may be met by mid- to late September, 2015. If needed, NOAA Fisheries will distribute a Fishery Bulletin announcing a closure at a later date.

#### **About Gulf of Mexico Fishery Management Council**

The Gulf of Mexico Fishery Management Council is one of eight regional Fishery Management Councils established by the Fishery Conservation and Management Act of 1976. The Council prepares fishery management plans, which are designed to manage fishery resources within the 200-mile limit of the Gulf of Mexico.
