NOAA Fisheries Seeks Public Comment on a Draft Supplemental Environmental Impact Statement for Royal Red Shrimp in the Gulf of Mexico

Comment Period Ends October 6, 2014

NOAA Fisheries is seeking public comment on a draft environmental impact statement for Amendment 16 to the Fishery Management Plan for the Shrimp Fishery of the Gulf of Mexico. The Environmental Protection Agency announced the availability of the draft environmental impact statement on August 22, 2014.

The Gulf of Mexico Fishery Management Council (Council) is currently considering actions to modify the annual catch limit and choose an accountability measure for royal red shrimp. Accountability measures are management controls that ensure catch limits are not exceeded or provide corrective measures if overages occur. The draft environmental impact statement analyzes the environmental impacts of these proposed actions.

This environmental impact statement is supplemental to one previously developed for the Council's generic amendment to set annual catch limits and accountability measures. The previous environmental impact statement is available from the Council website at http://www.gulfcouncil.org/docs/amendments/Final%20Generic%20ACL_AM_Amendment-September%209%202011%20v.pdf.

Request for Comments

NOAA Fisheries must receive comments on this draft environmental impact statement no later than **October 6, 2014**.
