The prohibition on the sale or purchase during a closure for coastal migratory pelagic fish does not apply to coastal migratory pelagic fish that were harvested, landed ashore, and sold prior to the effective date of the closure and were held in cold storage by a dealer or processor.

6. In § 622.385, add paragraph (c) to read as follows:

**§ 622.385 Commercial trip limits.**

**Commented [S57]:** Action 5, 5.1, 5.2 Pref Alternatives 2/2b, 4/4a commercial limits

(ii) [Reserved]

7. In § 622.386, revise paragraph (c) to read as follows:

**§ 622.386 Restrictions on sale/purchase**

\* \* \* \* \*

(c) King or Spanish mackerel harvested in or from the Gulf, Mid-Atlantic, or South Atlantic EEZ may be first received by a dealer who has a valid Federal Gulf and South Atlantic dealer permit, as required under § 622.370(c)(1), only from a vessel that has a valid Federal commercial vessel permit for king or Spanish mackerel, as required under § 622.370(a), or a valid Federal charter vessel/headboat permit for coastal migratory pelagic fish, as required under § 622.370(b).

\* \* \* \* \*

8. In § 622.388, revise paragraph (e)(1)(ii), (e)(2)(ii)(A), and (e)(2)(iii) to read as follows:

**§ 622.388 Annual catch limits (ACLs), annual catch targets (ACTs), and accountability measures (AMs).**

\* \* \* \* \*

(e) \* \* \*

(1) \* \* \*

(ii) The stock ACLs for Gulf migratory group cobia in the Gulf zone are 1,474,200 lb (668,686 kg) for 2021, 1,638,000 lb (742,984 kg) for 2022, and 1,738,800 lb (788,706 kg) for 2023

**Commented [SS8]:** From Am 32, Ch 3. NMFS has determined that the dealer limitation in section 622.386(c) is inconsistent with the requirement in section 622.386(b) for Gulf Group Cobia on all federally permitted vessels to be sold to a federally permitted dealer, as well as with the Gulf and South Atlantic Council's Generic Amendment (GMFMC and SAFMC 2013) that created the federal Gulf and South Atlantic dealer permit. Therefore, NMFS intends to correct the regulations at 50 C.F.R. 622.386(c) to make the restriction applicable only to king and Spanish mackerel rather than CMP generally. This will allow federally permitted dealers to accept Gulf Group Cobia harvested from the EEZ from any vessel regardless of permit status.

This text has been revised from being described as CMP in general to specifically KM and SM. The rest of paragraph (c) remains unchanged.

and subsequent fishing years.

(2) \* \* \*

Commented [SS11]: FL East Coast Zone

(iii) \* \* \*

Commented [SS12]: FLEC not sold cobia

(A) If the sum of cobia landings that are sold and not sold, as estimated by the SRD, exceeds the stock ACL, as specified in paragraph (e) (2) (iii) of this section, the AA will file a notification with the Office of the Federal Register, at or near the beginning of the following fishing year to reduce the length of the following fishing season by the amount necessary to ensure landings may achieve the applicable ACT, but do not exceed the applicable ACL in the following fishing year. Further, during that following year, if necessary, the AA may file additional notification with the Office of the Federal Register to readjust the reduced fishing season to ensure harvest achieves the ACT but does not exceed the ACL. The applicable ACTs for the Florida east coast zone of cobia are 716,882 lb (325,172 kg) for 2021, 796,536 lb (361,303 kg) for 2022, and 845,554 lb (383,537 kg) for 2023 and subsequent fishing years. The applicable ACLs for the Florida east coast zone of cobia are 796,536 lb (361,303 kg) for 2021, 885,040 lb (401,447 kg) for 2022, and 939,504 lb (426,152 kg) for 2023 and subsequent fishing years.
