Connecting to Audio

TWO AUDIO OPTIONS

OPTION ONE: Computer Audio (headset or earbuds with mic is best)
In Audio Settings box select “Computer Audio” Next, select the microphone and speaker options that correspond with your computer

PRO TIP: you may have to unplug and re-plug in your audio device for your pc to recognize and setup the device for use.

OPTION TWO: Phone Audio

In Audio Settings box select “Phone call” Then, using your phone, call the number provided and when prompted enter the Access Code and Audio PIN

Your Audio PIN is unique to you. Do not share it with others.

NOTE: Either option can be used but please do not use both at the same time on different devices. Doing this will create an echo when speaking. Make certain to MUTE your computer or other device.

NOTE: You must log into the webinar to provide virtual testimony.

Muting and Unmuting

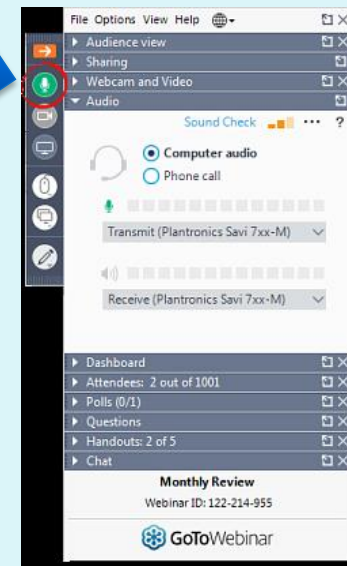

When your name is called the meeting organizer will unmute your line. You must also unmute yourself to speak. Click the “microphone” button to mute and unmute.

Unmuted = GREEN

Muted = RED

You may also use the muting/unmuting function on your phone if using telephone audio.

Please mute yourself when you are finished speaking.

NOTE: You must log into the webinar to provide virtual testimony.
